### **REASONS FOR ALLOWANCE**

1. This is in response to the amendment filed March 26, 2004, in which claims 28-31 are added.

2. Claims 1-31 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance:

As per claims 1, 9, 17 and 22, the claimed features "receiving from the client a transform command indicating an input data table name in the database and at least one rule indicating at least one cell in the input table to transform and a transform operation to perform with respect to the at least one cell" in conjunction with other elements of the independent claims would not found anticipated or obvious over the prior art made of record. As per claims 5, 13, 19 and 27, the claimed features "at least one rule indicating at least one cell in the input table to transform and a transform operation to perform with respect to the at least one cell; writing the transformed input table data to the database in the server after performing all transform operations specified in the rules of the transform command against the accessing input table" in conjunction with other elements of the independent claims would not found anticipated or obvious over the prior art made of record.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Art Unit: 2172

4. The closet prior art, U.S. patent Number 6,298,342 relates to query operations for manipulation of tables in relational databases but fails to teach the above limitations.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
